

Spring Triticale

Take Your Annual Forage to the Top

Description

Elevator is a new spring triticale selected for yield, high quality forage, palatability and excellent protection against disease. It has excellent feed value when used alone or in mixtures with silage peas. Elevator is ideal for silage, grazing or green feed hay production. The improved forage quality takes milk production to the next level.

Features

Medium Maturity

Medium to tall height

Excellent vigor

Excellent lodging resistance

Reduced awn

Disease Rating

TRAIT	RATING
Leaf Rust	R
Stem Rust	R
Common Bunt	R/MR
Fusarium Headblight	MR
